

PACALDO CHRISTIAN GLENN CASQUEJO

Full-Stack Developer | BSIT Student Cordova, Cebu | Email: roronoazoljin@gmail.com

SUMMARY

A dedicated Software Developer and Information Technology student with a strong focus on engineering high-performance web applications and custom software. Proven ability to bridge the gap between complex backend logic and visually captivating frontend design. Passionate about clean code, system visualization, and hardware innovation.

TECHNICAL SKILLS

- **Languages & Frameworks:** Next.js, React.js, TypeScript, Tailwind CSS, PHP (Laravel), C#, JavaScript
 - **Databases:** PostgreSQL, MySQL,
 - **Tools & Platforms:** Git, GitHub, Vercel, Node.js, Arduino (IoT), Figma (UI/UX).
 - **Specialties:** Responsive Web Design, RESTful APIs, System Visualization, CRUD Operations.
-

PROJECTS

Bisakol Shop | *Full-Stack Developer*

- Developed a localized e-commerce platform with real-time state management and a seamless checkout experience.
- Optimized frontend performance using Next.js, resulting in faster load times and improved SEO rankings.

CPU Scheduling — SJF Visualizer | *Creator*

- Engineered a web-based simulation of the Shortest Job First (SJF) algorithm to assist students in understanding OS concepts.
- Implemented dynamic Gantt chart rendering using React to visualize process execution and wait times in real-time

VALENTINES APP | Creator

- A romantic web app that generates personalized Valentine's Day messages and gift ideas based on user preferences

Sinking Fund Planner | *Developer*

- Built a financial planning tool that helps users save for future expenses by calculating regular contributions to a sinking fund.
-

EDUCATION

Bachelor of Science in Information Technology *Cordova Public College* | 2023 – Present

- Relevant Coursework: Web Development, Operating Systems, Database Management, Data Structures & Algorithms.
-

CERTIFICATIONS

- **JavaScript Algorithms and Data Structures** – FreeCodeCamp
-

HOBBIES & INTERESTS

- **Hardware Innovation:** Developing IoT and automation solutions using Arduino and various sensors.
- **UI/UX Design:** Refining development workflows through modern interface design and user psychology.
- **E-Sports:** Engaging in strategic community-based gaming (Mobile Legends).
